1. Introduction

The National Statistics Postcode Directory (NSPD) Version Notes contain specific information about each quarterly release of the postcode directory, including details of recent changes that have impacted on the data. Various annexes and tables provide more detailed supporting information. ONS Geography also supplies an annual User Guide that contains descriptions of the NSPD, its derived postcode directories and their contents along with information about the methodologies used, data quality and limitations. Both documents are included with the postcode directories as .pdf files.

2. News

2.1 New Travel To Work Areas (TTWA)

From August 2008, the NSPD includes the new (2007) Travel To Work Areas in place of the old (1998) TTWAs. The 243 current TTWAs were defined in 2007 using 2001 Census information on home and work addresses, and are based on Lower Layer Super Output areas in England and Wales, data zones in Scotland, and Super Output Areas in Northern Ireland.

2.2 2008 wards on the NSPD

Due to late receipt of a 2008 (Communities) Order by Ordnance Survey, one of the 2008 ward boundary changes was not included on the August 2008 NSPD. This is listed below, and has been included in the November 2008 release.

The Powys (Communities) Order 2008

2.3 Enterprise Regions (Scotland)

After September 2007, the 21 Scottish Local Enterprise Companies (LECs) were replaced by five Scottish Enterprise Regions and one Highlands and Islands Enterprise Region of the Scottish Government's economic and community development agency. The regions are:

- Grampian
- East Central Scotland
- Highlands and Islands
- South of Scotland
- Tayside
- West Central Scotland

These areas are included in the 'TECLEC' field on the NSPD from August 2008 and their names and codes, and a look-up to the old LEC codes, are included in the metadata. Further details can also be found in the **User Guide**.

2.4 Statistical ward error

The Pembrokeshire order (operative April 2003) was not included in the 2005 statistical ward boundaries. Therefore the boundary set for 2005 Statistical Wards accidentally extended the boundary of Whitland / Hendy-Gwyn ar Daf Ward (00NUSH) into what should be part of Maenclochog / Maenclochog ward (00NSQK). This error has now been corrected and ONS Geography would like to apologise for the oversight.

2.5 NUTS and LAU boundaries

The NUTS and LAU areas for England and Wales are now current to 2007. Scottish NUTS and LAU information is current to 2004. Further details can be found in Annex A of the **User Guide**.

2.6 Ward allocations (Northern Ireland)

In May 2007 OSNI carried out a spatial refresh of their boundaries in Pointer. This resulted in a small number of ward allocations changing where the grid reference did not. This was done to remove errors that were highlighted concerning multiple ward names. There was an historic issue, where unique codes had not been created correctly for NI wards and this was also rectified when the refresh was carried out.

2.7 All NSPD formats contained on one disk

From November 2007 all formats of the NSPD (DBF, CSV, TXT or MDB) are included on one disk. The data is available zipped on CD-ROM or unzipped on DVD-R.

2.8 PCT changes

No changes since August 2008.

3. Changes to postcode content

3.1 Postcode counts and currency

This release of the NSPD contains 2,468,268 postcodes within the United Kingdom, the Channel Islands and the Isle of Man. They are current to the previous month and include both live and terminated postcodes.

Table 1 shows the split between large and small users by country, and the change in the numbers of postcodes since the previous quarter.

Table 2 shows the numbers of postcodes, postcode sectors and postcode districts by postcode area.

Table 3 shows the numbers of postcodes assigned grid references by positional quality indicator, country and user type.

Table 4 shows the numbers of terminated postcodes.

3.2 Postcode reorganisations

Royal Mail issue bi-annual lists of postcode reorganisations in their 'Update' series. The latest issue is 'Update 47' which contains no postcode reorganisations. Details can be found at Royal Mail's website: [Royal Mail Postcode Updates](#)

4. Currency of the administrative and health geographies

This release of the NSPD relates current postcodes in the United Kingdom to May 2008 electoral and administrative area boundaries and to July 2006 health areas and October 2006 Primary Care areas.

5. Contacts

Further information about the availability and contents of this issue of NSPD (and other directories) can be obtained from:
